PROFESSIONAL EXPERIENCE

Talent Selection and Development Researcher | *AAMC*

Remote | **Sep. 2025 - Present**

- Developed and maintained people analytics models to evaluate applicant-job fit using **Python** and **NLP** techniques
- Built predictive models in **R** to support data-driven interview prioritization, reducing time-to-fill by 25%
- Collaborated with hiring leaders to design **AI**-enabled solutions to improve the efficiency of talent selection processes
- Created **Power BI** and **Workday** HR dashboards to translate hiring data into actionable insights for leadership
- Performed quantitative and qualitative analysis using **Excel** and **SQL** to identify workforce trends
- Conducted **data audits** to ensure data accuracy, consistency, and compliance across reporting systems

Recruitment & Engagement Manager (Volunteer) | *MORE*

Saint Paul, MN | **Nov. 2024 - Nov. 2025**

- Implemented engagement programs (e.g., recognition initiatives), enhancing morale, belonging, and retention
- Created performance evaluation frameworks, increasing retention by ~15% through feedback and recognition initiatives
- Optimized onboarding with a structured framework, reducing onboarding time by ~30% and improving volunteer readiness
- Developed and executed targeted recruitment campaigns to attract top talent, aligning strategies with business objectives

I/O Researcher (People & Workforce Analytics) | *University of Minnesota*

Twin Cities, MN | **Sep. 2021 - Jan. 2025**

- Performed advanced **statistical analysis** (e.g., correlation, regression) using **R** and **Python** to analyze talent outcomes
- Optimized hiring practices by conducting research on **AI** usage in employee recruitment and selection (e.g., LLMs, interview question writing, applicant reactions, and prompt engineering)
- Designed and deployed surveys via **Qualtrics** for 4 research studies, collecting data from 1000 + employees to inform organizational strategies and improve employee experience
- Leveraged **SQL** and scripting languages to analyze both structured and unstructured workforce data
- Built **ML** predictive models (e.g., random forest) using **R** to identify workforce trends and forecast performance outcomes

Consumer Insights Analyst | *Oadeer Home*

Los Angeles, CA | **Nov. 2020 - Jul. 2021**

- Provided HR leadership with workforce planning insights by forecasting sales trends and staffing needs using **Python**
- Developed **Tableau** dashboards to visualize consumer trends (e.g., seasonality), improving marketing alignment
- Presented customer feedback insights to leadership, driving strategies that increased customer satisfaction by ~29%
- Supported **ETL** data pipeline management, streamlining data integration and enhancing efficiency for analytics workflows

Business Intelligence Analyst – HR Analyst | *Woocoo Inc.*

Los Angeles, CA | **Jul. 2015 - Jul. 2018**

- Implemented data validation protocols, reducing HR reporting errors by ~25%, and improving workforce planning accuracy
- Developed people analytics dashboards in **Workday** and **Power BI** to track key HR metrics like headcount and turnover
- Assisted in HR-related research projects, analyzing **workforce trends** such as performance and engagement
- Collaborated with HR leadership to reduce turnover by ~40% through targeted retention strategies
- Developed HR-optimized data models and maintained data warehouse structures to support people analytics reporting
